

**Many times Many
(the wedding song)**

**Many times Many
 my hopes and my dreams
The stars so many above
Many times Many
 the moments it seems
That bring us to this place my love**

**Many times Many
The laughter we've shared
Many times many the tears
Many times Many
 the good and the bad
Many times many the years**

**And now oh my darling
 my sweetheart, my love
Twixt dear friends and spirit we stand
Eternity bows low and offers the rings
We step forth and offer our hands**

**Oh bind us together for all souls to see
Forever
 Time has no end
Many times Many
 the joys that will be
Again and again and again**
